REFLECTIVE JOURNAL
Termination of Placement

** use the back if needed

Describe in your own words what happened that led to the termination of your placement. Be very specific.

What do you believe you could have done that would have resulted in a different outcome?

Do you feel that problems were 'brewing' at your placement? And if so, how did you deal with them?

If you had the opportunity to do things over again, specifically, what would you do differently?

What lessons have you learned from this experience that will help you become more successful in the future? Be specific.
