Co-op Self Evaluation

Report card comments normally follow this format; student strength, weakness, areas to improve upon and recommendations. If you had the opportunity to write your own report card comment what would it be?

Explain how your achievement has been in this course. Was it above or below the expectations you set for yourself at the beginning of this semester? Explain why your achievement resulted this way.

Please provide advice for future Co-op students (i.e Don't procrastinate on timesheets). These will be posted in the room for everyone to see next year.
